

MCEP is working with the Centers for Medicare & Medicaid Services (CMS) to resolve a notice we received that could impact our certification and Medicare/Medicaid services at our facility. Following are answers to common questions:

- The current deadline is January 18, 2019 and MCEP is doing everything possible to ensure the issue is resolved prior to that date.
- MCEP has a plan in place to communicate with patients and assist with rescheduling, if needed.
- The CMS notice was based solely on statistical patient census data and is not related to quality or safety.
- MCEP is at the forefront of elevating healthcare in Dayton and has a strong history of complying fully with CMS rules and regulations.
- MCEP's accreditation with the Joint Commission, a nonprofit responsible for accrediting and certifying nearly 21,000 health care organizations and programs in the United States, remains fully intact.
